Ten British Planes Are Missing After Attacks Ranging From Stavanger In Norway To Lorient, France

LONDON, Nov. 15.—(CP)—Royal Air Force bombs on Berlin wrought new chaos to the heart of Germany's railway system during the night, tearing at five railway stations and freight yards scattered throughout the German capital, the air ministry said today.

The whole area of one station, the Stettiner, was left "a mass of flames."

Pindus Mountains Echo To Battle Cry Of Skirted Evzones

By JAN VINDRICH

ATHENS, Nov. 15.—(BUP)—The battle cry "aera" rings over the snowy slopes of the Pindus mountains where Greece's crack highlander troops—the skirted Evzones—are fighting the Italian invader.

"Master Planner"

Britons are expecting evzones, wearing B.A.F. counter-attacks against their foe, inspired by Sir Charles Portal, new Chief of Air Staff, who is known as an apostle of attack. As head of the bomber command, he drew up the "master plan" of blinding German embarkation ports and supply centres, which a large-scale attack with diving bombers is credited with slowing off an invasion attempt.

MEAT OF DOGS AS NAZI FOOD IS LEGALIZED

BERLIN, Nov. 15.—(AP)—The meat of dogs was legalized for human consumption Thursday for Greater Germany, effective Jan. 1, 1941.

Inspection of dog meat will be made under provision of a new law effective on that date when that commodity is to be controlled in the same manner as meat from cattle, pigs, goats, horses and other domestic animals.

Dogs and hogs after being slaughtered are to be examined for evidence of trichinosis. The same applies to wild hogs, bears, foxes, river wolves, badgers and other mammals.

Animals intended for human consumption.

Horse meat now is available in some restaurants and is served without the customer having to

ask for it.

WHEAT FARMERS PLEDGE UTMOST IN WAR EFFORT

REGINA, Nov. 15.—(CP)—Full resources of the Saskatchewan pool organization were pledged to the Dominion's war effort in resolutions approved at the pool's annual meeting here.

Delegates urged the Dominion government to conscript finance, industry and manpower for the more efficient prosecution of the war.

As to the disposal of Canadian wheat, a resolution recommended the government close the Winnipeg Grain Exchange wheat market for the duration of the war and have all marketable wheat handled by the wheat board.

The resolution said wheat marketing machinery at Winnipeg serves no useful purpose in the marketing of the Canadian wheat crop.

The meeting opposed compulsory acreage reduction and suggested that the quota on wheat be established on a basis with special consideration by way of minimum deliveries to farmers with small acreages.

The Dominion was urged to advance funds to growers for construction of storage silos according to government specifications, on their own farms.

Storage payments would be continued, this to be applied to the cost of bins in such a manner that the growers would eventually own the bins, this arrangement to apply on the 1941 crop.

Special Tribute Is Paid Admiral For Air Attacks

LONDON, Nov. 15.—(CP)—Admiral Arthur Lumley St. George Lyster, who has followed the sea for 35 years, was given a "special tribute" by First Lord of the Admiralty A. V. Alexander Thursday for his leadership of the Mediterranean fleet air arm in its attack on Italian fleet units at Taranto.

Initially, his exploits owe him his appointment as commander of the fleet, which was eventually won by his leadership of the Mediterranean fleet air arm in its attack on Italian fleet units at Taranto.

Named for England's patron saint, he has spent most of his career at sea or in staff schools. Admiral Lyster's recent record shows only three years of shore duty.

During 1919 he served aboard the H.M.S. Brown during the tour of the Prince of Wales in Canada and Australia. He was A.D.C. to the Indian Emperor in 1920 when he became a peer-admiral.

MONTREAL, Nov. 15.—The appointment of W. Murray, European freight manager, Canadian Pacific Railway, to the post of acting European manager, London, England, has been announced by George Stephen, vice-president in charge of traffic and approved by Sir Edward Beatty, chairman and president.

Mr. Murray will be acting European manager during the absence of J. C. Patterson, who has been loaned by the company to the ministry of supply of the United Kingdom where he will serve as director-general of transportation.

SALVATION ARMY PLANS NATIONAL DRIVE IN MARCH

TORONTO, Nov. 15.—Due to the heavy demands for the Auxiliary War Services for troop camps, both C.A.F. and N.P.A.M., provided at the request and under the direction of the Canadian Department of National Defence, Ottawa, the Salvation Army has found it necessary to prepare for a national drive for funds on March 10 to 19, inclusive, next spring.

The objective has been set, and approved by the War Services Department at Ottawa, at \$100,000. Quotas for individual communities and districts are now being worked out at national headquarters in Toronto.

Sir Edward W. Beatty, G.B.E., K.C., L.L.D., president of the Canadian Pacific Railway, has accepted the position of National chairman for the drive.

Organization of district or provincial, and community committees is under way. Voluntary committees of leading citizens for every city, town and community across Canada will be set up well before March 10.

It was pointed out today by the Salvation Army officials here that the drive had been made necessary only after all efforts to effect a combined campaign for all war service organizations had proven futile.

CANADA MUST PLAN TO MEET CHEESE NEEDS

Great Britain Seeking All Of Product Dominion Can Ship

By R. K. CANNING

OTTAWA, Nov. 15.—(CP)—Of. officials seemed agreed today that Dominion and provincial agriculture departments and the dairy industry must do some solid planning if Canada is to respond satisfactorily to Britain's plea for all the cheese this country can ship.

Yesterday agriculture minister Gardiner announced in the House of Commons that Canada has agreed to provide 117,000 pounds of cheese and more if possible.

SOME DIFFICULTIES

Cheese is given priority next to wheat, in the scramble for export space because of its concentrated food value. Accordingly, while Canada has agreed to provide about 20,000 pounds more cheese than it exported to the United Kingdom this year, efforts will be made to exceed the agreed amount.

But officials pointed to certain difficulties that will have to be met before this can be done. Canadian cheese normally about 10,000 pounds of cheese.

With increased waste, returns from the Dominion have been of greater employment Canada's consumption of butter and raw milk is bound to increase. The Dominion also has undertaken to supply the United Kingdom.

But cheese does not grow in a year and recent inquiries indicated there would be no marked increase in dairy cow population next spring.

The only way that milk production can be held to increase would be by heavy feeding of cows already in production.

RESEARCH STUDY

Deputies also have contended that heavier feeding increases production costs and it is expected they will argue the new price of 14 cents a pound at Montreal does not allow for higher costs.

The price is two-fifths of a cent higher than under the present agreement, it is considerably below the price last winter in the open market, which reached more than 18 cents and resulted in increased production at that time.

The whole situation will require careful study, officials contended. Care must be taken that no large number of milk cows are slaughtered this fall. Since Canadians have not had a shortage of almost all kinds of food they might be called upon to consume less cheese, it was suggested.

Frequently it has been urged that more milk be used to make cheese and less for butter but Canadians now are eating about all the butter being produced in this country and any increased use of milk for cheese

production might result in a butter shortage. Another obstacle in a shift to that mode of Canada's cheese is produced in Eastern Ontario and Quebec and cheese factories do not exist in any great extent in other parts of the country.

Hockey Agreement Reached

MEETING last night, the Men's Athletic Board of the University of Alberta approved the principles which will govern the new co-operative agreement between the Edmonton Flyers of the Alberta Senior Hockey League and the Golden Bears of the University of Alberta. All that now remains to be done is the actual writing out of the agreement and the signing of it. Jim Pantin, athletic director of the U. of A., was authorized to complete the agreement.

This venture is a new one in hockey here that is likely to work in the advantage of both the Flyers and Bears. Under the agreement, the Flyers will have the right to use any Bear for one senior league game, although the university retains the right to a player if it needs his services at the same time as the Flyers.

In return for the use of its players, the university will be given a certain number of practice nights at the Arena free of charge.

This mutual assistance pact between the two hockey clubs that were generally fighting over players in the past is a result of the war. The university's control of the arena has been turned into a C.O.C. drill hall and the Golden Bears have no place to practice except outdoors or at the Arena. The cost of the Arena they felt was more than the treasury would stand.

In case any dispute should arise, the agreement will provide for an arbitration board. Dr. Hardy will be one member and others will be appointed later.

Unless the Flyers put into action 1940 regulars, the university stands to benefit most from the deal. While a number of the Golden Bears are definitely top-notch players, they can hardly be a great deal of use to the Flyers when they are only one game away. You can't fit a stronger into your hockey machine and get much out of him in one game.

However, the agreement appears to me because it may mark the start of more friendly relations between the city and university hockey clubs. In the past the university has been pretty rigid about enforcing its rule that varsity students must play varsity hockey. Both the student and varsity clubs can gain a lot by meeting each other halfway and co-operating.

And by the way, have you got your tickets yet for the opening game of the Alberta Senior Hockey League last Saturday night with the Flyers pitted against Turner Valley Oilers? Better get them early if you like to pick your spot for the demand is getting hotter every day.

Frisch Will Go For Caps Too

THIS is the time of year when the bears start figuring out every sort of conceivable record and average for the football season. Ford Frisch, president of the National League, announces that Frankie Frisch of the Pirates holds the league championship for being tossed out of parks more often than any other player or manager.

In fact practically every letter which Frisch has in file from Frisch announces that a check is enclosed to pay some fine or other imposed on him.

National League umpires now wear white pants and Frisch is convinced that the league paid for these from the fines imposed on him. He has just received a check for his final fine of the 1940 season. He writes up: "Now that I've paid for the umpires' white pants, why don't you do something about those awful, old-fashioned caps they wear?"

While the average race does not realize it, a stallion often earns more in stud fees than he ever did racing. Buck Toney, owned by E. R. Bradley and one of the highest priced sires in the United States earned more than \$600,000. Other famous stallions have earned over \$1,000,000. Breeding fees run from \$2,000 down to \$100 and even less depending on money winning records of the offspring.

Canadians Ready for Junior League Opener

Canadians are all set for the opening game in the City Junior League on Sunday afternoon against the E.A.C. team according to an announcement made on Thursday night by Manager Ralph Blackmer.

Coach Jimmy Graham also stated that he was very pleased with the way the boys have come along and expects them to give a good account of themselves in the junior league.

Gordon Davis or Cam McCallum will be in the net, while Dave McCallum and Jim Phipps will be the other line. In any event, they have had the advantage of good coaching for Jimmy Graham, a one of the best veteran goals in hockey in these parts. If his progress here takes on even a small part of the fire and enthusiasm of the late "Ting" Thompson, the Maple Leafs and E.A.C. are going to have a tough battle on their hands in every game with the Canadians this winter.

It is a good thing that the boys have had the advantage of good coaching for Jimmy Graham for tonight at the Arena with a light workout billed for 7 o'clock.

May Broadcast Eastern Playoff

OTTAWA, Nov. 15.—(CP)—Officials of the Canadian Broadcasting Corporation are giving serious consideration to a suggestion by Major Stanley Lewis of Ottawa that the Interprovincial Rugby Football Union playoffs between Toronto Argonauts and Ottawa Rough Riders be broadcast shortly after 11 o'clock on Wednesday.

Major Lewis said he made the suggestion after receiving many letters from players in England asking for more live broadcasts of "the football game."

Playoffs: P. Kelly, St. John's; C. P. Portland; Q. Overton; second, Spruce Grove; P. Pennington, etc.

MONTREAL, Nov. 15.—(CP)—Toronto Maple Leafs made use of their greater experience Thursday night to score their second National Hockey League victory in three starts, defeating the rookie-stocked Montreal Canadiens 6-2 before about 7,000 fans.

Practically toying with their opponents at times, Leafs scored two goals in each of the three periods while the best Canadiens could do was a pair of goals by Louis Trudel, making his first start of the season after missing the first two games because of an injured knee.

Henry (Hank) Gaudin, heavy sophomore star and linemate Peck Langelle each scored twice as well as picking up an assist. The two other Toronto goals went to Reg Hamilton and Nick Metz.

The Leafs seemed able to match the Flying Frenchmen in speed at any time, threw up a better defense and had better goalkeeping. Once they took the lead on first period goals by Hamilton and Metz they seemed content to put aside their time and wait for opening.

Leafs took nine of the 13 penalties.

Two of the 13 penalties were major to Gaudin and Jack Adams for fighting. The major came after a brief flare-up in the Toronto end after Gaudin had been held on to Adams in the goal crease. Although they did not receive penalties, the best action in the scrap was supplied by Murphy Chamberlain, a former Leaf and defenseman, Wally Stanowski.

None of the penalties came in the last period, with Gus Mether getting three minutes and Church two. Adams and Langelle also had their majors in the third period while the remaining penalty went to Toe Blake.

Lines:
Toronto: Brode, Church, Hamilton, Apne, Drillon, N. McNeil, Stanowski, Kampan, Langelle, Schirmer, Marker, Heron, D. Metz, Taylor, Gaudin.

Canadiens: Gardiner, Gougeon, Young, Quilty, Trudel, St. Louis, Beaudin, Graboski, Haynes, Beaudin, Blake, Lach, A. Adams, Demers, Chamberlain, Mather, 1212, 4.

Officials: Mickey Han, referee, Archie Wilcox, linesman.

SUMMARY
First period: 1—Toronto, Hamilton (Apne, 16:52); 2—Toronto, N. McNeil (Drillon, Apne, 17:40); 3—Toronto, Gaudin (St. Louis, 18:40).

Second period: 3—Canadiens, Trudel (Quilty, 10:40); 4—Toronto, Gaudin (Langelle, 12:12); 5—Toronto, Gaudin (Trudel, 13:45); 6—Toronto, Gaudin (Trudel, 15:45); 7—Toronto, Gaudin (Trudel, 17:40).

Third period: 1—Toronto, Gaudin (Langelle, 2:30); 2—Toronto, Langelle (Gougeon, 3:40); 3—Toronto, Marker (St. Louis, 10:40); 4—Toronto, Quilty, Adams and Gaudin (major).

Canadian Troops Plan Big Program of Hockey

WITH THE C.A.S.F. SOMEWHERE IN ENGLAND, Nov. 15.—(CP)—The Canadian troops are going to keep hockey alive in England this winter. A large artificial ice rink has been obtained by the Y.M.C.A. for use of the Canucks and a boom hockey season is expected. Plans are being completed to enable teams from the two Canadian divisions and corps troops to play regular schedules.

Come Pearson, longtime physical director at Toronto Y.M.C.A. and for several years physical director at the Ottawa Y, who now is organizing secretary of the Division sports, heading up an office in the spacious Arena building to devote much of his time to organizing the program. These will cover every unit which can raise a team.

"If the Hun raiders just leave the building alone, we should have an excellent hockey season," he said. "The Y.M.C.A. obtained the rink after some negotiations and it is now being fixed for our troops. It likely will open for the first game sometime this month and as far as I can learn will be the only game in England going this winter."

The glass roof is being taken out and boarded up for safety. The rink is regulation size for hockey and the ice surface will be as good as most in Canada.

The rink will operate practically all the time. Every morning and four nights a week the rink will be played to teams will practice. Pleasure skating will be permitted in the afternoons and three nights a week for both soldiers and civilians. The troops will receive a cent for their skating or hockey but civilians will be charged a small sum.

Sydney Defeats Glace Bay 5-3

GLACE BAY, N.S., Nov. 15.—(CP)—Two overtime goals fired by Johnny McCredy of Winnipeg and Bud McEachern of Charlottetown gave Sydney a 5-3 win over Glace Bay Thursday night in a Cape Breton Hockey League game that was studied with 15 spectators.

Except for a first-period goal by Winnipeg's George Smith, McCredy and McEachern handled the brunt of the Millionaire's scoring. Besides their goals, each cashed in one in the second.

Hockey Practice

Canadian Amateur Glace Bay hockey team is getting off to a flying start with a practice called for Monday night at the Arena from 7 to 8 o'clock. Les Lavery is going to handle the club's entry in the city Juvenile league this year.

The practice is open to all players wishing to try out for a place on the team. But an invitation is extended especially to all players from the Canadian-Creweaders. Bring your own sticks as this is the first winter.

Seabiscuit Rated 1940 Champion Of United States' Handicap Horses

NEW YORK, Nov. 15.—(AP)—Only the truly great thoroughbred can stamp his deeds into record books from coast to coast, but this one engraved his name on a million pages as well. The United Press selects as horse of the year and 1940 handicap champion—Seabiscuit. It would be easy to award Seabiscuit the title on reputation or sentiment alone. Leading money winner of all time, abject thoroughbred of his era and biggest bargain in turf history, he also endeared himself to a nation as a personality. Thousands of people admire him; hundreds of thousands regard him affectionately as a friend.

But on the race tracks a title awarded on reputation or sentiment is a hollow one. The United Press selection was based on neither. It was made only after thorough analysis of a dozen conflicting claims on behalf of Eighty Three, Chatterbox, Dan Patch, and others. Seabiscuit's record was balanced, the name of the horse led all the others.

While he started only four times and was retired before the season was three months old, he achieved more in just four races than did any horse who was active the entire year.

WON DESPITE SETBACKS
You have achieved his place in spite of setbacks which would have been too much for a lesser horse. He was retired early, but he left sound and well and just after making his last race his greatest one. Here are the factors in his favor:

With two firsts and a third in four starts, he earned \$90,000—highly unusual for a runner-up in the handicap division and the third highest win of any horse all year.

His time for the mile and a quarter race of the \$100,000 Santa Anita handicap was 2:13.15—out of the four fastest for the distance in U.S. history. Only Whirlaway, Dan Patch, and Dan Patch were faster.

He won a 1 1/2 mile race, and a 1 3/4 mile race, and a 2 mile race, and a 2 1/2 mile race, and a 3 mile race, and a 3 1/2 mile race, and a 4 mile race, and a 4 1/2 mile race, and a 5 mile race, and a Describing needs of the French refugees and soldiers, many of whom have been in hospital since the evacuation from Dunkerque, Princess Alice encouraged the women to set up sewing, knitting and packing committees immediately. She read a letter offering support from the French Red Cross.

By MYRTLE NEYER ELDRED

Yet, if you are the average mother, you worry a lot in these change days from fall to winter, whether the child has on enough clothes. You are fearful of bare heads as the tendency to dash out of warm houses into crisp, outdoor air without being properly insulated against the change.

Even her mothers of infants worry about clothing. A baby is so helpless to tell us his feelings that we have to do the worrying for him. If his hands and feet are icy cold, we are pretty certain that he isn't comfortably warm, and more clothes would seem to be the answer.

New Name Is Written Into Illustrious Annals Of Britain's Royal Navy

LONDON, Nov. 15.—(C.P.)—Britain has written a new name into her naval annals, that of a steady Irish captain with the alliterative name of Eoghan Fegan, who went down with his ship, H.M.S. Jervis Bay, her guns blazing and her colors flying, as she challenged a powerful German raider. Thanks to the "miracle" stand of the Jervis Bay in mid-Atlantic at least 25 of 38 ships in company are safe in British ports.

Capt. Fegan, 49, who went to his death Nov. 5 maintaining the great traditions of the Royal Navy, was brought up in those traditions. His father, was the late Vice-Admiral F. F. Fegan of Mallinbeg, Tipperary. His grandfather, was also a naval officer. Two brothers served in the royal navy. One is now doing the other's job. Captain F. F. Fegan, attached to the naval command of a West Scotland fleet. He was a cadet in 1906, and in the first Great War he served first as a lieutenant and later was in command of the destroyer H.M.S. Kingfisher. In 1924 he was appointed to command the H.M.S. Jervis Bay. In 1934 he was appointed to command the H.M.S. Jervis Bay. In 1934 he was appointed to command the H.M.S. Jervis Bay. In 1934 he was appointed to command the H.M.S. Jervis Bay.

Resigns War Post

MELBOURNE, Nov. 15.—(A.P.)—Sir Keith Murdoch, managing director of the Melbourne Herald, is resigning his position as director-general of information, to which post he was appointed last June. He will, however, retain advisory association with the government department regarding overseas activities.

Attack On Greece Hints Axis Drive On Near East

Italy's invasion of Greece is believed only the forerunner of an axis drive for control of the Balkans and seizure of the rich, British-occupied Iraq and Iran oil fields. Even now, some Axis leaders are planning to move into Greece and Turkey which invading armies could use to pass through to the great oil fields of Iraq and Iran.

ROME, Nov. 15.—(A.P.)—The Italian invasion of Greece included the town of Maniaki, a key point in the Balkan chain. The British raid also included the town of Maniaki, a key point in the Balkan chain. The British raid also included the town of Maniaki, a key point in the Balkan chain.

MINISTRY IS DEFENDED BY MR. GARDINER

Ministry Of Agriculture Upholds Government's Record In Parliament

OTTAWA, Nov. 15.—(C.P.)—Freshly returned from his over seas trip, Hon. J. G. Gardiner, minister of National War Services and Agriculture, gave the House of Commons its first taste of controversial oratory Thursday, as he defended the government's record in relation to agriculture and answered earlier criticism by opposition leader, Hanson and J. J. Caldwell, acting C.P. leader.

SENATOR SEES OPPORTUNITY ACQUIRE NFLD.

Canada Urged To Take Over Colony As Aid To Britain

OTTAWA, Nov. 15.—(C.P.)—Senator William Duff (Lib., Nova Scotia) suggested in the senate Thursday that Canada should acquire Newfoundland, with Newfoundland in the future, in order to see if the British empire could not be taken over by Canada as a wartime aid to Britain.

He said that the British empire was a vast empire, and that it was a mistake to think of it as a collection of separate states. He said that the British empire was a single entity, and that it was a mistake to think of it as a collection of separate states.

"The Barn", City's Newest Ballroom, Opens Tonight

New And Old Are Combined Here In Dancing Palace

Yesterday and tomorrow are cleverly merged to give Edmonton the latest thing in scientifically-designed ballrooms, "The Barn," located at 10133 103 street, grand opening of which takes place tonight.

Although the theme of the Barn, absolutely novel to western Canada, is carried out in all its picturesque detail, the actual facilities are as streamlined and new as tomorrow's sunrise.

The floor, floating on several tons of rubber, a new departure in ballroom construction, will provide

Multi-aptitude technique known to the electrical and radio engineer will give dancers in The Barn the advantage of a system of acoustics and public address not before experienced in this city.

Built at a cost of \$100,000 by the Pioneer Investment Company, comprising a group of Edmonton business men, The Barn will be under the management of A. R. MacIntosh, former manager of the Tivoli Ballroom.

Claring to the retirement of dancers will be The Barn, a modern coffee shop, to be managed by Mickey Conti, proprietor of the Grand and Bus Street coffee shops. The clubbers' length of the ballroom, 20 stalls, fashioned like the stalls in a racing stable, are provided for parties of from two to five people. Two stalls suitable for larger parties, also are provided.

The stalls will be serviced by waitresses from The Barn, which is located in the front of the building. A soft drink bar leading off to the coffee shop, also is located in the ballroom. The Barn is fitted with the latest equipment for providing a varied menu for supper parties and the like. Caddy gunwom is used for the counters.

The ballroom floor is of five-ply construction and is laid in such a way that it literally floats on 10 tons of live, resilient rubber. The hardwood maple flooring is laid in the form of a square so that at all times the dancers move with the grain of the wood, another factor which contributes to the tirelessness of dancers. Actually the dancers do not tread on the hardwood floor at all. They glide over a film of wax which is laid after the floor is sanded. The wax is a ground into the problem of loose wax peeling above, trousers, cuffs and gloves of the dancers.

At the east end of the ballroom a

Doorkeeper

stage for the orchestra is located. Here "The Stableboys," an eight-piece, hand-picked orchestra will dispense avert and swing music, mostly numbers including attractions in keeping with the farmyard motif.

Each musician will double on two or more instruments to provide an orchestra of more than usual versatility. Request numbers will be played. The stage, which is finished like a small barn, is a soundproofed by Moss Ties Ltd. and is another section of the building. Above the platform is a dressing room for the orchestra and special entertainers.

Directly behind the stage is a radio control room for broadcast of the ball by means of loudspeakers. Instead of several small speakers, two large wooden speakers are used to avoid the metallic sound. The system brings the orchestra to the ears of the dancers in all parts of the ballroom in a mellowness, even tone with the same volume regardless of the location. Turntables for playing electrical transcriptions also have been installed in the radio control room. This equipment will be available for private dances, fashion shows and other occasions.

The lighting effects are controlled from the stage by the orchestra leader. Seats are provided for those who wish to watch the dancing. The check room is available with the latest checking facilities. Two entrance vestibules, as a double measure, will be the ladies' powder room. This is furnished with a powder bar, mirrors and seats so that feminine guests can touch up their makeup in comfort.

Walls of the ballroom are decorated with large murals, some of these paintings depicting comic barnyard and hilariously scenes and of them carrying out the farm motif. The paintings were designed and executed by Sidney Dyke and Harry Cole. Mr. Dyke also designed the attractive front on the building which is decorated with Zoni lighting, a new product of Neon

Products of Western Canada, Ltd. that shaggle false rods at either end of the ballroom complete the decoration.

The building is heated by unit heaters which distribute humidified air and are controlled by an automatic electrical thermostat. Thus an even temperature is assured at all times. For warm weather use an air condition unit will be installed.

Entrance and foyer of the ballroom carries out the barn theme with log siding. The doors are designed to open wide enough to permit ample room for use for such affairs as automobile shows. The stalls in the ballroom also are removable from such occasions. A big sign on the north side of the building provides free parking for patrons.

Office of the manager is located above the foyer and is reached by a staircase leading off the ballroom. Well-known to Edmontonians as a genial ballroom manager and master of ceremonies, Mr. MacIntosh has had many years of experience in this work. He operated the Alexandra Ballroom in Vancouver where he "discovered" Mark Kennedy, now a famous Canadian orchestra leader, who plays regularly on nation-wide radio broadcasts.

lately on nation-wide radio broadcasts.

In 1935 Mr. MacIntosh came to Edmonton to manage the Tivoli Ballroom. He continued operation of the Tivoli until it was destroyed by fire in June, 1939. Since then he has operated the Avenue Ballroom in Saskatoon.

Always on the lookout for unusual talent, Mr. MacIntosh also "discovered" Georgia Dry, who was a leading singer in Mark Kennedy's orchestra for many years until her marriage. Another singer in reach fame under the sponsorship of Mr. MacIntosh was Gay Harris of Vancouver.

"I'm still keeping my eyes open for exceptional talent," Mr. MacIntosh said in an interview this week.

Many radio fans outside of Edmonton remember Mr. MacIntosh as "The Inspector," master of ceremonies of the Tivoli's amateur hour.

DANCE FLOOR BANS ACHING FEET AT BARN

Surface Is Poised On 10 Tons of Rubber At New Ballroom

Dragging steps will be unknown to patrons of The Barn, Edmonton's modern dance hall opening tonight. The figurative elastic step becomes a reality, because the entire floor is poised on 10 tons of live rubber, specially ventilated to ensure long life.

This rubber floor is something to really marvel at. For the first time in history anyone is coming to the end of the first business man and the tired business girl to make dancing something that is almost akin to the dream of perpetual motion.

NEAREST OF ALL FLOORS

No matter how late the hour may be, aching feet simply won't stand in this newest of all floors.

And, according to the report, up to and eliminated that old business of those was, that finally sticks to the sole of shoes and impedes the actions of the dancers, soda trousers and garters.

A. V. Carlson was the contractor in charge of construction and others who played a part in creating this new, fine ballroom are Dow and Scott, plumbing, Zorch Bros., decorators, Sun Specialty, Sunley Electric, Sunmerville Co. Ltd., hardware supplies, C. A. Wadsworth, surfacing, and Weaver Supplies.

FREE LESSONS MAY BE GIVEN AT THE BARN

Wallflowers will go out of fashion if plans of Manager A. R. MacIntosh of Edmonton's new ballroom, The Barn, are carried out.

Free dancing lessons of half an hour duration, on certain nights of the week, is the idea that the management has in mind. Mr. MacIntosh stated Thursday.

Mr. MacIntosh also stated he has hopes of expanding the services of an outstanding vocalist for dance programs through the winter.

Official opening of The Barn will take place tonight and tomorrow will be broadcast over radio station CFRN, with Manager MacIntosh as master of ceremonies.

The orchestra is composed of eight pieces and each musician is sufficiently versatile to "double" on another instrument.
